Re: SAC 2011-00041-4JM  
Dillon County

Dear Mr. Smoak:

This is in response to your letter dated December 13, 2010, requesting a wetland determination, on behalf of Dillon County, for a 10.0 acre portion of a tract located in the vicinity of Fork, Dillon County, South Carolina. The property is situated north of Old River Road (South Carolina 17-42) and is a portion of TMS#122-22 as recorded in the Dillon County property records. The approximate boundaries of the subject site are shown on a drawing entitled "MINE MAP ADDENDUM / OLD RIVER ROAD MINE / DILLON COUNTY, SC" with a revised date of April 1, 2011 by Matthew T. Zielke.

Based on an on-site inspection and a review of aerial photography and soil survey information, it has been determined that this portion of the referenced property does not contain any wetland areas or other waters of the United States and, as such, Department of the Army authorization will not be required for mechanized land clearing, excavation, or the placement of dredged or fill material on this site.

Please be advised that this determination is valid for five (5) years from the date of this letter unless new information warrants revision of the delineation before the expiration date. All actions concerning this determination must be complete within this time frame, or an additional delineation must be conducted. For the purposes of 33 CFR 331.2, this is considered to be an approved jurisdictional determination.

**Additionally, consultation with the SC Department of Archives and History (SCDAH) data base has indicated that there is an archaeological site (38DN0027) within your project boundary. You are advised to contact SCDAH prior to performing any work.**

In future correspondence concerning this matter, please refer to SAC 2011-00041-4JM. If you have any questions concerning this matter, please contact me at 843-365-0583.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Mitchell", with a large, stylized initial "J" and "M".

Joshua Mitchell  
Regulatory Project Manager
